SAUMYA TIWARI

+91 8630001414 | saumyacodes02@gmail.com | linkedin.com/in/saumya-tiwari-22909a330 | github.com/saumya-st

PROFESSIONAL SUMMARY

Full-stack developer and B.Tech Computer Science student with hands-on experience building MERN and MVC web applications, REST APIs, and AI-powered systems using LangChain and Retrieval-Augmented Generation (RAG). Skilled in JWT authentication, database design, AWS deployment, and end-to-end product development.

EDUCATION

KIET Group of Institutions | B.Tech in Computer Science | 2024 – 2028 | Ghaziabad, India
CGPA: 8.3/10

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C, SQL
Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS
Backend & AI: Node.js, Express.js, REST APIs, LangChain, RAG, JWT
Databases: MongoDB, PostgreSQL, Firebase Firestore, Supabase, SQLite, IndexedDB
Cloud & Tools: AWS, Docker, Git, GitHub, VS Code, Streamlit, Streamlit Cloud
Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, MVC Architecture

PROJECTS

Karya Next.js, React, Node.js, Tailwind CSS, JWT
GitHub: `https://github.com/saumya-st/karyaa`

- Built an AI-powered productivity and task-management platform using MVC architecture to support clean, scalable, and maintainable application development.
- Implemented JWT-based session management and role-based access control to protect user data and support multi-user task workflows.
- Developed responsive Next.js and React interfaces and Node.js REST APIs for task creation, updates, and productivity tracking.

Jansewa – Civic Issue Reporting React, Firebase, Supabase, IndexedDB, Gemini AI
GitHub: `https://github.com/saumya-st/JANSEWA-PROJECT`

- Developed an offline-first civic issue reporting application using IndexedDB caching to preserve reporting functionality in low-connectivity areas.
- Integrated Firebase Firestore for real-time status synchronization and Supabase PostgreSQL for secure, optimized media storage.
- Used Google Gemini AI to analyze citizen reports and predict issue priority, accelerating authority triage and resolution workflows.

AI Study Coach Python, Streamlit, SQLite, Groq API
GitHub: `https://github.com/saumya-st/STUDY-ASSIS`

- Created an AI study planner that generated 50+ personalized, time-blocked schedules from user productivity inputs.
- Integrated Llama 3.3 70B through the Groq API for real-time study recommendations and adaptive feedback.
- Built an analytics dashboard with streak tracking and CSV export; deployed on Streamlit Cloud with SQLite-backed persistence.

CERTIFICATIONS

AWS Certified Cloud Practitioner | NoSQL Databases (Infosys) | Java Spring Training (Infosys) | Linux Fundamentals (Red Hat Academy)

LEADERSHIP

Pragmatic Fashion Society Creative Lead, KIET

- Led branding, styling, and creative ideation for society events, strengthening engagement and turnout.
